

RX Insert for EVO® Goggles

RX Insert for EVO® Goggles / AGU230-001-300

DESCRIPTION

Easy fitting prescription inserts. RX insert fits behind goggle lens, to combine corrective lenses with protective eyewear.

Method for adding prescription lenses to RX insert:

Take your 'Goggle and RX insert' to a high street optician and ask for the RX insert to be glazed with your relevant prescription. The optician will send the RX insert away to a lab for glazing. Once this is complete the insert is ready and can be simply inserted into the goggle housing ready for immediate use."

OPTIONS

RX Insert for EVO® Goggles (AGU230-001-300)
