Yes – D marking = passes optional clogging test

Minimum Filtration Efficiency  
94% For FFP2 Rated

Nominal Protection Factor  
12

Mask Design  
Fold Flat

2 Point Harness adjustment system  
Yes

Latex free  
Yes

Mask Material  
Polypropylene

BSI Kitemark  
Yes

## FEATURES

### Endoskeleton Structure

The internal skeleton frame guarantees that each mask keeps its shape, increasing performance and maintaining rigidity. The integrated spring feature absorbs facial movements ensuring a secure face fit and seal.

### Compact

The fold flat design makes SpringFit™ more compact, and easily pocketed. SpringFit™ is also individually packed to ensure a high level of hygiene.

### Compatibility and Vision

The low profile design of the SpringFit™ provides exceptional compatibility with other above the neck PPE, such as eyewear. The low profile also offers an improved field of vision for the wearer.

### Comfort

The welded nose piece gives a tighter fit and minimises irritation. The adjustable strap means that SpringFit™ can be fitted comfortably to all head sizes and shapes. A foam area around the inside of the mask provides a comfortable fit.
