FEATURES

Prescription RX Insert Lenses

The RX Modular Prescription Kit enables the use of corrective lenses with the Force®10 Typhoon™ respirator, preventing traditional prescription spectacles interrupting the face seal and compromising protection.

Typhoon™ Valve

Low resistance exhalation valve for easy breathing, with stable mask configuration. Made from silicone it performs well at very low temperatures.

Available in 3 Sizes

Available in Small, Medium and Large to provide an even better fit to a wider range of face sizes and shapes improving the seal and level of protection. A size guide is available for use with Force®8 & Force®10 Typhoon™ masks.

PressToCheck™ Compatible

The Force®10 Typhoon™ is compatible with both JSP Classic filters and our PressToCheck™ filters, which allow for Daily Face Fit Reassurance™.

Filter Compatibility

Fully compatible with PressToCheck™ twin filter cartridges, providing daily face fit reassurance with the easiest way to check the seal each time the mask is donned. Fit it - Press it - Check it.

Effortless Maintenance

The Force®10 Typhoon™ has been meticulously engineered to incorporate a small number of key components. Disassembly, cleaning and maintenance are effortless with replacement parts available.

Excellent Face Seal

Extensive research has been carried out by NIOSH (ISO16976-2) to distinguish the worlds 5 most common facial shapes. Using this research JSP have digitally optimised the ergonomics of the Force®10 Typhoon™ face seal to maximise wearer compatibility.

Peel-off Visor

Replaceable peel-off visor protectors are available to prolong the life of the Force®10 Typhoon™.

Ultra Lightweight Comfort

Comfort is a key feature of this ultra lightweight mask, the web like structure of the harness cradles the users head – ensuring wearer comfort throughout the working day.
